

Color code	Monday	Tuesday	Wednesday	Thursday	Friday
Photospheric science	10-12. Fleishman. Opening. Updates on the team and team activity. Planning for the workshop.	9-11 da Silva Santos. NLTE inversion of SST data on NOAA 12723	9-10 Team work on AR modeling.	9-10 Team work on AR AR modeling.	9-10:30. Planning for follow up studies
Chromospheric science		11-12 Discussion of NLTE inversion of SST data on NOAA 12723			.
Free time	12-13 Lunch	12-13 Lunch	12-13 Lunch	12-13 Lunch	12-13. Lunch.
Coronal science	13-14 Stupishin. Comparison of SST WFA data with GX NLFFF reconstruction at various heights	13-14:30 Team work on AR modeling.	13-17 Model validation with various data (radio etc.)	13-14	13-17 Team work on AR modeling.
Evolution; data-driven modeling	14-17 Team work on AR modeling.			14-15 Team work on AR selection and advanced AR modeling.	
Thermal properties		16-17 Kazachenko. Overview of data-driven modeling of NOAA 12723		16-17 Kazachenko. Overview of data-driven modeling of NOAA 12723; follow up	
Team work
