

NAME, First Name: ANTUÑA-MARRERO, Juan Carlos

Affiliation: University of Valladolid, Spain

Role in the project: Expertise on lidar and sun photometry. Will contribute in the validation of satellite observations with the observations from lidar, sun photometer and other ground bases stratospheric aerosol observations (Task 2). Also will contribute with my experience on data rescue and recalibration of surface based observations (Task 3).

Current position: Postdoc Researcher (2019-)

Former Position(s):

- Meteorologist, Radar Meteorology, INSMET, Camagüey, Cuba (1982-1985)
- Specialist, Minerals Spectral Analysis, Geological Enterprise, Camagüey, Cuba (1986-1988)
- Researcher, Camagüey Lidar Station, INSMET, Camagüey, Cuba (1989-1995)
- Senior Researcher GOAC, INSMET, Camagüey, Cuba (2002-2018)

Education:

- Ph.D. in Atmospheric Sciences, Rutgers University, NJ, USA (1999-2002)
- M.S. in Meteorology, University of Maryland, MD, USA (1996-1998)
- B.S. Physics, Havana University, Cuba (1976-1981)

Services in National and/or International Committees (most recent nominations):

- Member of the international panel for NASA satellite mission TEMPO (2016 –)
- Steering Committee of the Stratospheric Aerosol and Its Role and Climate (SSiRC initiative)
Co-lead of the Data Rescue Activity (2012-)
